

The **S-940** provides unmatched versatility and simplicity with increased power and productivity! Available with a fully automated self-leveling screed head, raking/fine grade head, this powerful machine has fewer switches and an easy-access hinged console, making any job comfortable for your operator. It has a foldable elevation beam that provides a narrower profile during transport with the added benefit of providing easy entry to jobsites. With the option of a powerful diesel engine, this model is unstoppable.
