

Get superior productivity and flatness with the **Mini Screed™ C**. Designed for small commercial, upper deck, and residential projects – the Mini Screed™ C provides you and your customers with high quality, professionally produced floors at a fraction of the cost of conventional methods. With laser-controlled accuracy, this machine will screed to higher tolerances than traditional methods and works well with cement mixes of varying slumps.

WHAT OUR CUSTOMERS SAY:

“Metcon uses Somero's® Small Line equipment on nearly every flatwork pour. The improved flatness and production achieved by the Mini C or CopperHead® on grade or deck slab pours give them Most Valuable Equipment status.”

— Glen Garber, **Metcon**
